OBJECTIVE

Motivated and creative BCA student at Graphic Era University with a passion for frontend web development, Data Science, and AI/ML technologies. Skilled in HTML, CSS, JavaScript, and Python. Experienced in building responsive web applications, predictive ML models, and interactive data-driven projects. Eager to contribute to a dynamic team and gain practical experience in real-world software and AI development.

TECHNICAL SKILLS

Web (Frontend)	HTML5, CSS3, JavaScript (ES6), Bootstrap, Responsive Web Design, DOM Manipulation
Programming	Python, C, C++, Java
Data Science / AI	NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, Machine Learning, EDA
AI/ML Concepts	Regression, Classification, Data Preprocessing, Feature Engineering, Model Evaluation
Tools & Platforms	Git, GitHub, VS Code, Jupyter Notebook, Google Colab
Other Concepts	Version Control, API Integration, Component-Based Dev, DOM, Agile Basics

PROJECTS

◆ Personal Portfolio Website | *HTML5, CSS3, JavaScript*

- Designed and developed a fully responsive personal portfolio website showcasing skills, projects, and certifications.
- Implemented smooth scroll navigation, animated sections, mobile-first design, and dark/light UI theme.
- Hosted live on GitHub Pages with custom domain linking and SEO-optimized structure.

◆ House Price Prediction — ML Model | *Python, Scikit-learn, Pandas, Matplotlib*

- Built a Machine Learning regression model to predict house prices based on features like location, area, rooms, and amenities.
- Performed Exploratory Data Analysis (EDA), data cleaning, feature engineering, and outlier handling on a real-world housing dataset.
- Applied Linear Regression, Ridge Regression, and Random Forest algorithms; achieved best accuracy with Random Forest (R^2 score: ~ 0.87).
- Visualized feature importance, correlation heatmaps, and prediction vs actual plots using Matplotlib and Seaborn.
- Deployed a simple prediction interface using Python for end-user input and output display.

◆ AI Code Reviewer | *JavaScript, DOM, API Integration*

- Developed a web-based AI Code Reviewer that analyzes source code and provides quality feedback on logic and improvements.
- Implemented API integration for automated code analysis and strengthened understanding of asynchronous JavaScript.
- Focused on clean UI, real-time feedback display, and structured code output.

◆ Dynamic Process Scheduling Webpage | *HTML5, CSS3, JavaScript*

- Built an interactive simulation of OS process scheduling algorithms with real-time input handling.
- Implemented smooth user interaction and live output rendering; hosted on GitHub Pages.

◆ Responsive Websites (Multiple) | *HTML5, CSS3, JavaScript*

- Designed and developed multiple responsive websites using clean UI, structured code, and cross-browser compatibility.
- Practiced component-based development and beginner-level API integration for reusable, maintainable code.

CERTIFICATIONS & ACHIEVEMENTS

- **AWS Solutions Architecture Job Simulation** — Forage — Cloud Hosting Architecture Design
- **GenAI Powered Data Analytics Job Simulation** — Tata Group (Forage) — AI-driven Predictions & Data Storytelling
- **Cybersecurity Analyst Job Simulation** — Tata Group (Forage) — IAM Fundamentals & Strategy Assessment
- **Software Engineering Job Simulation** — Quantum (Forage) — Data Processing, Dashboard & Test Automation
- **UX Design Introduction Job Simulation** — Lloyds Banking Group (Forage) — User Research & Design Principles

EDUCATION

Bachelor of Computer Applications (BCA)

Graphic Era University, Dehradun | 2023 – 2026 (Ongoing)

Senior Secondary (12th) — Commerce Stream

Shri Guru Ram Rai, Dehradun | Completed: 2023

Secondary (10th)

Raksha Anusandhan Vidyalaya | Completed: 2021

SOFT SKILLS

- | | | |
|---|----------------------------------|------------------------------|
| • Problem Solving & Analytical Thinking | • Fast Learner with Adaptability | • Attention to Detail |
| • Team Collaboration | • Time Management | • Clear Communication Skills |

INTERESTS & HOBBIES

Trekking & Traveling • Writing Poetry & Journaling • Building Web & AI Projects • Learning New Tech (ML, Java, etc.) • Listening to Music • Caring for Pets
